

Theology of Emotions

REV. DR. DAVID ECKMAN

is a well known international speaker & author, is a seasoned pastor, seminary professor & was the vice-president of Western Seminary.

A massive confusion concerning their significance and place exists within Evangelical Christianity and in world cultures. Emotions are a critical element for the Christian counselor, pastor, and discipler to understand. Emotions are also a major area of struggle in the spiritual life as presented in the Bible. Using emotions as a starting point, we will biblically examine their place in the doctrine of salvation and ecclesiology, and especially their role in spirituality.
